WHITEPAPER

LEGAL DISCLAIMER

It is important that you carefully read this legal disclaimer section. If you have any doubts, seek legal, financial, tax, or other competent law professionals' guidance. All of the information shown here is not intended to be exhaustive, and it should never be construed as part of any formal agreement.

We are confident that the material in this white paper is correct and current, and that all products, services, technical architecture, coin distribution, and corporate schedules are correct and current. Furthermore, all of this information may have been modified without notice, and it should never be construed as a binding advising agreement.

No Advice:

This white paper obligates nobody to sign a contract or make a legally enforceable commitment to donate. There is no advice in this white paper, and it cannot be used to sell or solicit Trillions' purchase of our token, nor can it be used to construct a contract or make an investment decision.

Compliance with Tax Obligations:

If any taxes apply to their transactions, the users of the Website are solely responsible for ascertaining this. Who pays what taxes is not the responsibility of the website's owners or authors.

Limitation of liability:

For any loss or harm originating from this website's material, including written material, links to third-party sites, and data such as quotes and charts as well as buy/sell signals. ALTROS 36 will not be held responsible for any damages. Understand the risks and costs associated with trading assets on the financial market (digital or otherwise). ICOs, in particular, is one of the riskiest investment choices available to investors.

Investment risks:

Because of the high level of risk, cryptocurrency trading is unsuitable for all investors. Before trading cryptocurrencies, tokens, or any other digital asset, you should carefully examine your investment goals, level of experience, and risk appetite.

INTRODUCTION

What Is Altros36?

Altros36 is a new cryptocurrency that aims to address some of the shortcomings of existing cryptocurrencies. The name Altros is derived from the Latin word "alter," which means "other" or "different," highlighting its unique features and capabilities.

One of the main features of Altros is its focus on privacy and security. Unlike some other cryptocurrencies that rely on a public ledger, Altros uses advanced cryptographic techniques to ensure that transactions are secure and anonymous. This means that users can transact without fear of their financial information being exposed.

Another key feature of Altros is its commitment to decentralization. Altros is designed to be fully decentralized, meaning that there is no central authority or organization controlling it. This ensures that it is resistant to censorship and can operate independently of any government or financial institution.

Altros also aims to be highly scalable and fast. It uses a unique consensus algorithm that allows for high throughput and low latency.

EFFICIENCY

How Fast is Altros36?

Altros36 is designed to be a fast and efficient cryptocurrency, capable of handling a large number of transactions per second.

This is achieved through the use of a unique consensus algorithm that allows for high throughput and low latency.

Altros uses a hybrid consensus algorithm that combines proof-of-work (PoW) and proof-of-stake (PoS) to achieve high levels of scalability and speed.

This allows for fast confirmation times, low transaction fees, and a smooth user experience. Additionally, Altros is optimized for use in a wide range of applications, including micropayments, remittances, and peer-to-peer transactions.

With its fast and efficient transaction processing capabilities, Altros has the potential to become a popular choice for individuals and businesses looking for a fast, secure, and reliable cryptocurrency.

PRACTICALITY

Why Should I Invest?

Altros36's focus on practical, real-life projects is a unique approach in the cryptocurrency space.

While many other cryptocurrencies are focused on nontangible projects like NFTs or metaverse development, Altros36 is committed to creating real-world solutions that can help people in their daily lives.

This focus on practical projects as the main source of income for the company is a clear indication of Altros36's commitment to delivering value to its users.

By investing time and resources into practical projects, Altros36 is establishing a strong reputation as a cryptocurrency that is not just focused on speculation but on real-world impact.

This approach is likely to attract users who are looking for tangible benefits from their cryptocurrency investments and can potentially drive long-term growth and sustainability for the Altros36 ecosystem. Overall, Altros36's commitment to practical projects is a clear indication of the team's dedication to creating value for its users.

As the first token to take such an approach, Altros36 has the potential to establish itself as a leader in the cryptocurrency space and pave the way for others to follow.

In addition to its focus on practical projects, Altros36 also places a strong emphasis on community engagement and collaboration.

The team recognizes that the success of the cryptocurrency depends on the support and involvement of its users, and as such, is committed to building a strong community around the project.

This includes regular updates and communication with the community, as well as opportunities for community members to provide feedback and contribute to the development of the project.

Through this collaborative approach, Altros36 is creating a culture of openness and transparency, which is critical for building trust and credibility in the cryptocurrency space. By involving the community in the development and decision-making process, Altros36 is also ensuring that the project meets the needs and expectations of its users, which can help to increase adoption and drive growth in the ecosystem.

SUPPLY

What is the supply of Altros36?

Altros36 has a max supply of 1 trillion tokens, a strategic decision that provides ample liquidity and affordability for users.

With a large supply of tokens available, Altros36 can potentially achieve widespread adoption and usage, which can help to drive demand and value for the token.

Additionally, the non-burnable and non-mintable nature of the token supply ensures that the token remains consistent in terms of its value and circulation.

This fixed supply also provides greater stability and predictability for users, who can rest assured that the supply will not be subject to any changes or manipulations in the future.

With a commitment to practical projects and community collaboration, Altros36 is positioning itself as a cryptocurrency with the potential for long-term growth and success. As more users and investors become aware of Altros36's unique approach and potential for value, we can expect to see positive sentiment and hope continue to grow in the project.

FUTURE PROJECTS

- Trading Business Community
- Altros EdTech Platform
- A.I Personal Legal Consultant
- A.I Personal Medical Consultant
- Business Investment App
- A.I Digital Marketer
- Decentralized Gaming
- E-Commerce Using Altros36
- A.I GYM App
- Altros Online Education
- A.I Language Translation
- Micro Solar Chip TECH

DEPLOYMENTS

Which Blockchains is Altros on?

Altros36 is deployed to both the Famous & Efficient Binance Smart Chain (BEP-20) and Ethereum (ERC-20) networks, providing users with greater accessibility and flexibility. The deployment to both networks represents a significant development for the project, opening up new opportunities for adoption and growth.

The Binance Smart Chain is renowned for its low transaction fees and fast transaction processing times, making it a popular choice for many users and projects. By being deployed to the Binance Smart Chain, Altros36 can offer a more efficient and cost-effective user experience, potentially attracting more users to the platform.

Similarly, being deployed to the Ethereum network offers Altros36 greater potential for integration with other projects and networks, providing users with greater versatility and functionality. Overall, the deployment to both networks positions Altros36 as a dynamic and accessible cryptocurrency, with the potential for widespread adoption and value appreciation over time.

When will Altros ICO Launch?

-		
	2	
- 1		

3rd March, 2023 (9:36 PM IST)

End

24th November, 2023 (9:36 PM IST)

Number Of Tokens For Sale

3.6 Billion Tokens

Tokens Exchange Rate

1 Lakh INR = 1 Lakh ALTROS

Acceptable Currencies

BEP-20 Based Tokens (BNB Preferred)

After The ICO Ends, Altros36 Will Be Listed on the PancakeSwap Decentralized Exchange

SECURE PLATFORM

SECURE STORAGE We store the vast majority of the digital assets in secure offline

storage.

PROTECTED BY SMART CONTRACT All the coins are stored on our Multi-Sig wallets.

TRANSPARENT

We are transparent platform where all your assets are secure and fully decentralized.

WHY TO WORK WITH US?

BLOCKCHAIN INFRASTRUCTURE Integrates blockchain technology to provide secure assets.

EASY TOKEN INTEGRATION It provides perfect integration to all Wallets, Exchanges, DEXs, and DeFi in its entirety.

GLOBAL SYSTEM AND SECURE An efficient global system covering all corners provides the best data security.

ECOSYSTEM

TOKENOMICS

Token Name: Altros36 Token Symbol: ATS Decimal Places: 18 Total Supply: 1 Trillion Website: WWW.ALTROS36.COM Blockchains: BEP-20 & ERC-20 **BEP-20 Contract Address:** 0x6608a66ac9554d142cdfe4400792e1c466873564 **ERC-20 Contract Address:** 0x6608a66ac9554d142cdfe4400792e1c466873564 Future Exchange: PancakeSwap Supported Wallets: Any BEP-20 & ERC-20 Wallets Recommended Wallets: TrustWallet & Metamask Recommended Blockchain: Binance Smart Chain 6 Year Price Prediction: ₹1000

90% Of Total Supply will be locked after ICO For 36 Years. So only 10% of the supply will be released into the market (**100 Billion**)
